

Employment Opportunity – Core Testing Lab Technician

Thiele Kaolin Company, a leading provider of tailored mineral solutions, is currently recruiting for a Core Testing Lab Technician. This position is located in Sandersville, Georgia.

JOB DESCRIPTION, SKILL REQUIREMENTS, AND QUALIFICATIONS:

MAJOR DUTIES:

- Duties include performing all necessary testing on crude clays to determine quality of reserves for current and future mining areas.
- Test clays for waterwash, calcine, selective flocculation, and flotation response.
- Perform sample tests such as % residue, pH, viscosity, % moisture, brightness, color, % solids, and particle size.
- Enter test results into computer database.
- Job requirements may include other lab functions related to R&D project and production support such as plant trials and process improvement projects.

SKILL REQUIREMENTS AND QUALIFICATIONS:

- Knowledge of kaolin testing and processing based on experience or education (preferred).
- Good scientific and mathematical ability and background.
- Familiarity with lab techniques (preferred)
- Knowledge of Microsoft Excel and Word (preferred).
- Good attendance and safety record.
- Well-motivated with a strong desire to learn and a willingness to attend any training that may be required to learn the necessary job skills.
- Ability to organize and work independently or with a minimal amount of supervision.
- Ability to work well with others.
- Ability to communicate well through written and oral reporting.
- Demonstrated personal computer skills.

Qualified Candidates should email a resume to latonya.martin@thielekaolin.com. **Please note “Core Testing Lab Technician” in the subject line.**

Any job offer will be contingent upon the successful candidate passing a physical exam, including a drug screen and a background check as warranted.

Thiele Kaolin Company is an Equal Opportunity Employer.

Thiele Kaolin Company is a Drug Free workplace.
